September 14 - 17, 2025
Zadar, Croatia

XXth European Symposium on the Quality of Eggs
and Egg Products and XXVIth European
Symposium on the Quality of Poultry Meat

Topics for XXth European Symposium on the Quality of Eggs and Egg Products and XXVIth European Symposium on the Quality of Poultry Meat

- 1. Advancements in Egg and Poultry Meat Production Technologies**
 - Innovations in farming and production for eggs and poultry meat
 - Automation and robotics in egg and poultry meat processing
- 2. Quality Assessment and Improvement of Eggs and Poultry Meat**
 - Techniques for assessing quality in eggs and poultry meat
 - Genetic factors influencing quality of eggs and poultry meat
 - Nutritional strategies to enhance quality of both eggs and poultry meat
- 3. Safety and Microbial Control in Eggs and Poultry Meat**
 - Pathogen control and prevention in egg and poultry meat production
 - Methods for detecting and reducing contamination in eggs and poultry meat
- 4. Nutritional Value and Functional Properties of Eggs and Poultry Meat**
 - Nutritional profile and health benefits of eggs and poultry meat
 - Bioactive components in eggs and poultry meat
 - Functional foods and nutraceuticals derived from eggs and poultry meat
- 5. Sustainable Production of Eggs and Poultry Meat**
 - Environmental impact of egg and poultry meat production
 - Sustainable practices in egg and poultry farming
 - Waste management and recycling in egg and poultry meat production
- 6. Processing and Product Development in Eggs and Poultry Meat**
 - Novel products and processing methods for eggs and poultry meat
 - Quality control in manufacturing of egg and poultry meat products
 - Consumer preferences and market trends in egg and poultry meat products
- 7. Animal Welfare and Its Impact on Egg and Poultry Meat Quality**
 - Influence of animal welfare practices on the quality of eggs and poultry meat
 - Best practices for humane farming of poultry for eggs and meat

Egg&Meat

September 14 - 17, 2025
Zadar, Croatia

XXth European Symposium on the Quality of Eggs
and Egg Products and XXVIth European
Symposium on the Quality of Poultry Meat

8. Regulations and Standards in Egg and Poultry Meat Production

- Impact of regulations on quality and safety of eggs and poultry meat
- International standards and compliance for egg and poultry meat production and trade

9. Biotechnology in Egg and Poultry Meat Production

- Genetic engineering and its impact on the quality of eggs and poultry meat
- Biotechnology applications in disease prevention and control in poultry farming

10. Global Trade and Market Trends in Eggs and Poultry Meat

- International trade issues and opportunities for eggs and poultry meat
- Economic trends affecting the egg and poultry meat industries

11. Eggshell Quality and Poultry By-Products Utilization

- Factors affecting eggshell quality and innovative uses for eggshells
- Utilization of poultry by-products for added value and sustainability
